

Help keep Bryan beautiful and improve the health, safety, and quality of life for everyone. Citizens can positively impact their property and the community by adhering to city codes and reporting those who do not.

Together, we can help reduce crime, protect the health and well-being of our residents, and maintain property values.

Code Enforcement encourages compliance. In most cases the person responsible for the code violation will be given an opportunity to correct the problem. If unresolved, further action may be taken by the City to achieve compliance.

The City of Bryan's Code of Ordinances can be accessed in the code library of www.municode.com.
